

Dear Sirs,

I am writing in support of K-LOVE radio. K-LOVE radio is the only station my family listens to. It provides national news and essential information about local events. It plays Christian music which is the only music that my wife and I think is suitable for our children to listen to. I understand that you are considering changing the licensing structure in a manner that will negatively impact K-LOVE's service in my area and may even end it. Please keep in mind how important it's programming is to me and family, and that there wouldn't be any alternative if it were not available. I know of many families who listen to it as and hope that you will consider our wishes as you deliberate on your decision. Thank you.
